The Incas built the property around 1450, but abandoned it a century later at the time of the Spanish conquest. Dan Collins (June 6, 2008), Macmillan, ^ a B Brown, Jeff L. These stones are arranged to point directly at the sun during the winter solst. [62] The name of the stone (perhaps coined by Bingham) derives from the Quechua language: Inti means “sun” and wata-, “tie, hitch (up)”. Two: 10.1017 / s104566350007744. Journal of Latin American Geography. Fellman, Bruce (December 2002), American Journal of Physical Anthropology. “Debate in Peru: 17” New7Wonders of the World. M. (May 2000). The use of wheels in engineering may have been limited due to the lack of strong animals of esteem, combined with steep terrain and dense vegetation. [70] The approach to move and place the huge stones remains uncertain, probably involving hundreds of men to push the stones at a incline. They didn't have “ markers and osteol markers that they would have if they were living there all their lives.
